

## Fixed Assets

FINANCE's Fixed Assets module is designed to help you:

- Hold comprehensive, up to date details on assets company wide
- Simplify the task of asset management
- Ensure that asset valuation is effectively controlled

This module comprises of a comprehensive register which shows the current state of company assets. The register allows you to search and report on assets by department/class, taking account of depreciation, additions, residual values and disposals, giving you full control over asset valuation and movements.

## Key Features

- Fully integrated with all other ledgers for ease of use
- Runs standalone or linked to nominal ledger for automatic output of detail on acquisitions, additions, disposals and revaluations
- Multi-company functionality
- Manages capital and operating leases
- Automatically updates the nominal ledger by asset class or individual asset
- Displays the original purchase price and opening valuation at the beginning of a year
- Can display sales made of part of the asset
- Shows cumulative and current year's depreciation
- Keeps a full depreciation history which can be shown automatically when an asset is entered
- Indicates the type of asset (depreciating, non depreciating or appreciating)
- Shows rate of depreciation

### Key Features continued

- Option to produce periodic depreciation schedules automatically
- Displays the department to which the asset belongs and the person responsible for it
- Reports can be run at any time showing all information on each asset
- Operates on straight line or reducing balance
- Provides nominal asset account and nominal depreciation account
- Asset numbers can be generated automatically
- Text area of 260 lines by 35 characters for asset descriptions
